

## Open Day Wednesday 18<sup>th</sup> September

We invite families to take a look around our school and experience the St Martins learning environment first hand. You will have the opportunity to view numeracy, literacy and inquiry based learning programmes in action.

The Open Day is also an opportunity to look at the different learning approaches across the different year groups and the exciting opportunities students have to participate and learn within an engaging environment.

The Year 7 and 8 (senior) school has put together a very special programme for you where teachers and students will present their specialized programme. (See details below.)

The open day will run from 10:00am until 2:00pm. This enables visitors to see the school in operation during a typical school day.

Just a reminder that children will be very focused on the learning, please make sure you keep distractions to a minimum.

### Year 7 and 8 Programme

- Mathematics, Health and PE and Challenge Programme– Led by Jarad and Nicky Pateman in Room 18 and 19.
- Literacy and Information and Communication Technology – Led by Anita McGowan in Room 23.
- Science and Technology – Led Tony and Gretel Roberts in Room 22
- Performance Arts – Led by Amy Kenel and Trudy Rowe in the Music Room

We hope you take the opportunity to come and celebrate our wonderful school!

Kind Regards  
St Martins School
